

Bedford County Conservation District

Agricultural Equipment Rental Program

No-till planting and lime spreading equipment is available to rent to county farmers. Services provided with this equipment include delivery and set up, maintenance, and operating instructions. We also can arrange soil and manure testing, pH testing, nutrient management planning and residue management recommendations.

Bedford County Conservation District

All Equipment: \$30.00 Delivery Fee (\$40.00 Out of County)
\$100.00 minimum charge on all equipment use.

The maximum charge will be assessed for all acres planted that receive any tillage regardless of number of acres planted.

No-Till Corn Planters

Contact: Cody Waltemire

Office: 814-623-7900 ext. 128 Cell: 814-977-1786

There are nine John Deere four row planters set up to plant 30 inch or 36 inch rows. No tillage is required to plant with these machines. Sorghum and soybean seed cup attachments are available as well as row cleaners, dry and liquid fertilizer bins, and insecticide boxes.

Available Equipment:

1—John Deere (Model 1750) planters equipped to plant 36 inch rows with dry fertilizer; both have row cleaners.

2—John Deere (Model 1750) planters equipped to plant 30 inch rows with liquid fertilizer; both have row cleaners.

4—John Deere (Model 1750) planters equipped to plant 30 inch rows with dry fertilizer; all have row cleaners.

NEW Green Planter—John Deere (Model 1750) planter equipped to plant 30 inch rows with liquid starter fertilizer in row and liquid nitrogen side dress. This planter has been modified to roll and crimp cover crops while planting.

Rates:

< 15 acres—\$16.00 per acre

> 15 acres—\$13.00 per acre

.50¢ per acre discount if paid within 90 days
